

Based in Lafayette, Indiana, **Advanced Power Technologies** has years of experience in the design and manufacturing of power control systems and equipment, offering a full range of custom generator set controls and intelligent power distribution systems for 60 and/or 50 Hz applications ranging from 208V to 69 kV.

Providing Power Management Systems for companies worldwide, APT can design and build a Power Control System to meet your exact needs.

Products:

- Low & Medium Voltage Switchgear
- Generator Paralleling Switchgear
- Generator Connection Solutions
- Circuit Breaker Panels
- Motor Control Panels
- Motor Generator Systems
- Equipment Buildings

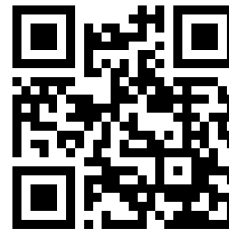

Typical Applications:

- Prime Power
- Emergency Power
- Alternative Energy Distribution
- Electric, Water, & Waste Water Utilities
- Universities & Medical Centers
- Data Centers
- Grocery/Retail
- Marine/Off-shore Power

ADVANCED POWER TECHNOLOGIES

Company & Product Overview

**PROVIDING A
COMPREHENSIVE APPROACH
TO RELIABLE POWER**

APS Balance of Plant Power System Solutions

Low Voltage Switchgear

APT Low Voltage (208V – 690V) metal enclosed distribution switchgear is available in front or rear access for indoor, outdoor, or container based installations and features insulated case circuit breakers and customizable sections.

Walk-in Switchgear & Equipment Centers

We offer various configurations of walk-in switchgear such as fully insulated equipment buildings, insulated isle, and ISO container based buildings for easy shipping and the rapid deployment of power systems.

Medium Voltage Switchgear

APT Medium Voltage (5kV – 15kV) metal enclosed distribution switchgear is built for indoor or outdoor installations. Available in both full and compact sizes, it features vacuum circuit breakers, and offers the ultimate in flexibility with many options available to meet any system needs.

Motor Generator Set Systems

APT Motor-Generator Systems can be utilized in various applications such as frequency/voltage converters, rotary UPS, grid isolation and grid support devices, micro grids, and solving power quality problems.

Generator Quick Connection Cabinets

APT Generator Quick Connection Switchboard or Tap Box is your best solution for a quick way to connect a rental generator set or load bank to your facility. APT offers floor-standing or wall-mount designs, from 400A to 4000A, with optional features.
